

Lyrics: for the planet and the human race.

These one is dedicated to each and everyone so listen.....

It's the time cause it can't go on like this
We've got to do something
to save our planet environment , o what a big disgrace
the blame is the human race
it's time for real solutions, so don't be afraid
don't hesitate to change our ways and the life we live
together with each other , otherwise this world won't last longer
before we're getting into trouble let's make it on the double
cause we are the one who have to change.

2 x ref.

It's time for us to do something, before it's too late
we have to come to The United Universe dot com
for the planet and the human race.

It's so wrong , we can't let this go on
we've got to do something
to stop all these fighting's
we can't close our eyes and let them people die
there must be a solution
there must be a way
it's time for the human race
to face that we're all the same
we've got to live together
and try to make life better
instead of killing each other
no matter what colour
no matter what race, we're all the same.

2 x ref.

It's time for us to do something, before it's too late
we have to come to The United Universe dot com
for the planet and the human race what a sham.

It's a tragedy, how we just let it be
glaciers are melting, water levels are rising
we can't stop the time, we have to realize that
we need to apply the solutions
there are many ways to save the planet today
polluting the environment at the end we have to pay
the earth is getting warmer
tsunami's getting stronger
and hurricanes, hear them coming
we've got to face one another, solve the problem with each other
don't hesitate, nor be afraid.

4 x ref.

It's time for us to do something, before it's too late
we have to come to The United Universe dot com
for the planet and the human race; (so please go to www.TheUnitedUniverse.com)
